Before talking about cyberbullying, we have to know what bullying is:

It is an aggressive and repetitive attitude towards who can't defend

**Now, cyberbullying is a form of bullying using electronic instruments of contact.**

The most common digital devices are: mobile phones, computers and tablets.

Includes posting or sharing negative, harmful, fake or mean content on someone else.

# CYBERBULLYING

Victims couldn't know who is their bully or why he behave like that.

Teens are often bullied because of stupid reasons, like physical appearance, sexual orientation or romantic relationship. It causes depression, loneliness and rejection of school.

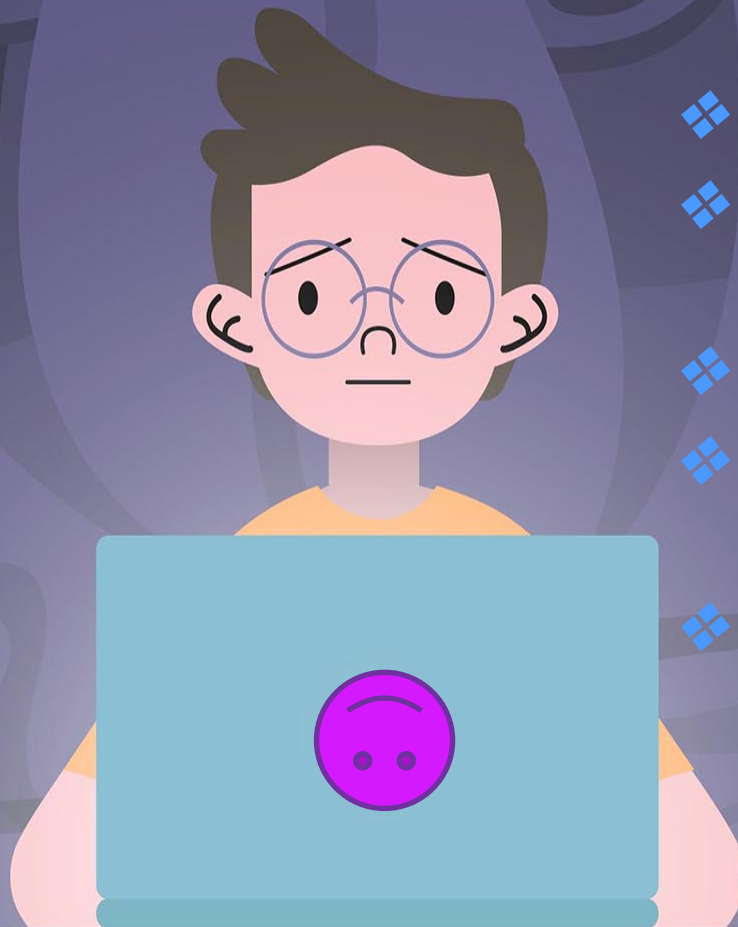

# TYPES OF BULLYING:

LOSER!

NO  
ONE  
LIKES  
YOU

- ❖ Verbal bullying;
- ❖ Physical bullying;
- ❖ Social bullying;
- ❖ Sexual harrasment;
- ❖ Gossipping;
- ❖ Social exclusion;
- ❖ Cyberbullying.

# PINK SHIRT DAY

lift each other up

The anti-bullying day is a day when people wear a pink t-shirt as a demonstration against bullying. Originated in Canada and is now celebrated around the world. It was first organized by high school students in Nova Scotia.

# WHY BULLIES HAVE THIS ATTITUDE?

This attitude isn't common only in teenage boys at school, but also in teenage girls.

Cyberbullies don't immediately understand the consequences of their attitude on victims.

Bullies behave in this way because of self confidence problems or because they suffered this type of attitude at home.

So they could be angry with the world or feel vulnerable.

# HOW TO MANAGE CYBERBULLYING ACTS

Do not answer to messages

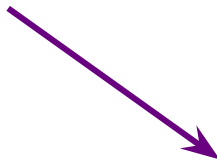

Block those contacts on social networks

Denounce the attitude to an authority

Copy some compromising messages to denounce the bully
