

CYBERBULLING

WHAT IS THE CYBERBULLING?

The **Cyberbullying** is a form of bullying that is carried out electronically, where to carry out different allegations there are different tools like internet and different social media like whatsapp, instangram, snapchat and ecc.

The term ciyberbulling was coined by professor canadian **Bill Belsey**
The English-speaking jurists distinguish usually between by itself cyberbullying which happens among minors and **Cyberharassment** which happens among adults and minors.

THERE ARE DIFFERENT TYPES OF CYBERBULLING:

1**Flaming**: violent and vulgara massages online aim to spark online battles.

2**Harassment**: repeated sending of messages aim to hurt someone.

3**Denigration**: gossip about someone and demage it for free.

4**Person replacement**: passing off as another person with personal data.

5**Hoax**: gaining someone's trust through deception.

6**Esclusion**: voluntarily excluding a person from the group.

7**Cyber persecution**: harassment aim to instll fear.

8**Doxing**: public dissemination of personal data on the internet.

What are the effects?

There are the different effects of cyberbullying between victims and executioners
The effects are manifested when the parents of the two characters of the cyber bullying find out through postal police.

Pheraps not alway the parents look the situation and the victmis can taking too big steps like the suicide.

LAW AGAINST BULLYNG

There is a law against the bullying is called 71/17 which protects young people.

Reference was made to this law in this period for the Dad.

It is a state law that has been in effect for at least three years.

MY EXPERIENCE

I have never been a victim of cyberbullying.

I know that there are the different association for remove the Cyberbullying and i warmly recommend to everybodyt who are victims to ask help.

This phenomenon is also of attention and not only there are different psychologists deal eith.
